ABOUT ME

Full Stack Developer with 2 years of experience building real-world projects with Angular, Java and Python. Specialized in AI integration in production — using Gemini, Spring Boot and FastAPI to deliver solutions with measurable impact.

TECHNICAL SKILLS

Frontend

- Angular 21
- TypeScript · JavaScript
- Tailwind CSS · HTML5

Backend

- Java · Spring Boot
- Python · FastAPI · Django
- REST APIs · JWT · Spring Security

DevOps & Cloud

- Docker · Docker Compose
- Nginx · Google Cloud
- Cloudflare Pages

Databases

- MySQL · MongoDB

AI & APIs

- Google Gemini AI
- Google Places API
- Chrome Extensions API

LANGUAGES

- Spanish — Native
- English — B2/C1

EDUCATION

IES Playamar · Torremolinos
Higher Degree in Multiplatform App Development (DAM)
2023 – 2025 · Java · Angular · Python · MySQL · Git

EXPERIENCE

TecnoAmbiente · Full Stack Developer *12/2025 – 01/2026*

- Integrated Google Gemini AI to automate data extraction from PDFs — converting manual biological reports into structured, processable data.
- Built a responsive Angular dashboard with a high-performance Python backend to optimize workflows for environmental specialists.
- Implemented document deduplication via file hash to prevent duplicate entries in the database.

DAM Internship · Frontend Developer *03/2025 – 06/2025*

- Built a web bibliographic application using Angular — modular UI with database connectivity.
- Participated in the full software development lifecycle (SDLC), from requirements gathering to deployment.

Amazon Logistics · Operations & Digital Tools *09/2025 – 01/2026*

- Maintained a 99% on-time rate operating under high-demand digital environments with strict daily KPIs.
- Heavy use of logistics management software for route optimization and real-time data management.

PROJECTS

TECNOAMBIENTE · *Angular · Python · FastAPI · Gemini AI · Docker* View project →
Intelligent document management platform for environmental firms. Automatic metadata extraction from PDFs using AI, hash-based deduplication and real-time control dashboard.

SENTINEL · *Angular · Spring Boot · JWT · Chrome Extension · Docker* View project →
Productivity app with habit tracking and distraction blocking. Innovative technical solution: Chrome extension as proxy to access browser processes from the backend.

LEAD SCOUT · *Angular · Spring Boot · Python · Google Places API · Docker* View project →
Automated B2B lead generation tool. Orchestration of 3 external APIs with rate limiting, JWT authentication and data export for sales teams.
